Pedestal Base Series

Taking up only three square feet of floor space, our PB Series bases allow you to maximize your floor layout with minimal impact on your footprint.

BUILT Systems pedestal bases provide height adjustability and a stable, solid work surface. This space-saving product can be used in a variety of ways, from printer stands to supplemental assembly stations.

Versatile

The simplest products can be the most versatile. By adding casters to a pedestal base, you can create a portable hub for team meetings anywhere on your plant floor.

Pair it with a mobile whiteboard for improved communication.
